EXAMINER'S AMENDMENT

1. Applicant's Remarks in response to Examiner's Office Action has been reviewed. Claims 1-17 are pending in the application. Claims 2-16 are added. This Office Action is Non-Final.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-17 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. For instance, claim 1 does not provide a practical application because it does not produce a useful, tangible and concrete result. Therefore, it fails to fall within a statutory category of invention.

Allowable Subject Matter

3. Applicant's arguments, see pages 5-10, filed on January 16, 2007, with respect to the rejections of claim 1 have been fully considered and are persuasive, and upon the extensive searches of various databases, the Examiner respectfully submits that claim 1 is allowable over the prior art of record. Claims 2-17 being further limiting to independent claim 1 are also allowed.
